2024/25

Supported by

## Turn to the Distance Learning Experts

### Why choose Maritime Training Academy?

#### The Distance Learning Experts

Since its formation Maritime Training Academy has been successfully providing specialist, expert training to marine professionals around the globe.

In recent years the Academy has significantly grown, offering an ever expanding training portfolio across several sectors of the maritime industry, from Superyachts to Shipping and Marine Surveying.

Delivered by distance learning our courses are managed and run by established professionals within the maritime industry. We are constantly pushing back the boundaries of knowledge with discoveries that are benefiting the industry.

Due to our rigorous academic standards our qualifications are highly respected internationally.

#### Outstanding Teaching

Our study material is written by industry experts who are actively working in their specialist fields. We provide outstanding teaching as a result of extensive research and close links within the maritime industry. Our tutors are practising professionals with strong academic and industry backgrounds, with sector-specific skills and practical experience.

#### World Class Learning

The inspiring thing about studying with us is not just what you learn but how you learn. We have taken flexible learning to a whole new level. We will connect you with the things that inspire you, wherever you are and wherever you come from. Providing high quality distance learning enables you to learn in your own time, at home, on board or wherever you choose. We are not campus based – reading material is supplied for assignments with regular support from your tutor. We will challenge you, inspire you, stretch your understanding and make you question ideas that you have always taken for granted – it is truly world class learning.

#### Excellent Support and Guidance

You will enjoy full support throughout your studies with module tutors to guide, advise and offer comprehensive feedback on your course work. Support is offered by MTA staff and fellow students at tutorials, or as part of the global community of students who can be reached through online student forums and social media sites.

#### International Recognition

Our long established distance learning courses are endorsed by industry associations and our Diplomas are also recognised by the University of Portsmouth.

Course Director

## Ian Bryant

My career spans over 40 years from all operating stages to Chief Engineer on a variety of vessels including cable-laying ships and other offshore assets, such as offshore drilling ships/ rigs and self-propelled jack-up units. More recently from 2002, I formed an independent Offshore Consultancy providing a range of services based around training, system procedures and competency for Offshore Blue Chip Companies involved in offshore drilling and the offshore renewables. The renewables relate to Wind Turbine Installation Vessels, HVAC substations and other aspects of the wind energy sector.

Other aspects of work include operations manuals for offshore renewables and oil and gas assets as well as Failure Mode Effect Critical Analysis (FMECAs) for well-known offshore companies.

---

# Offshore Operations

---

Our Diploma in Offshore Operations allows you to develop specialist knowledge and enhance your career opportunities.

## About the Course

The offshore operations course is designed to encompass all aspects relating to offshore activities. The subject matter gives a descriptive analysis from the creation of oil and gas, locating the deposits, the layout of subsea equipment, its extraction to its production and the equipment used. The course also discusses more recent offshore activities including wind energy.

Detailed information on module content is available at [maritimetrainingacademy.com](http://maritimetrainingacademy.com)

## Course Structure

The course consists of 10 modules. All students are required to successfully complete and pass the module assignments. Diploma students will also be required to sit and pass a final examination.

## Who is the Course Suitable for?

The offshore operations course learning structure is considered suitable for new intakes into the offshore industry and management personnel who wish to form a broad knowledge of the many aspects within the offshore industry. The course also serves to broaden and fill in the knowledge gaps and give a better grounding to those professionals already in the Industry (offshore marine crew including offshore company technical staff, suppliers, educators, trainers as well as equipment manufacturers).

## How to Enrol

Register as early as you can for a 1st October 2024 start. The registration period will be kept open until the 31st March 2025. Students can start from the point of enrolment after the 1st October 2024.

Complete the application form and send with your payment to enrol for the course to:  
MTA, Peel House, Upper South View, Farnham, Surrey, GU9 7JN, England.

“

*The MTA offshore operations diploma was an excellent experience for me, i got to learn new things, reinforced knowledge i have acquired during my career within the oil and gas industry, i learned new terms, legislation and technology being used in the industry. It was an excellent choice i certainly do not regret. A year of study while working might sound a lot of time and hard to achieve, but it was absolutely manageable as the course material was engaging. I would certainly recommend the course to anyone.*

”

*Karla Bernal Abad - Logistics Supervisor*

## Commencement Date

1st October 2024

## Duration

Maximum of 18 months from the course start date.

## Course Completion Dates

October 2025 and April 2026

## Examinations for Diploma Students

Students have two dates to choose from.

**Dates:** October 2025 or April 2026

**Venue:** UK

**Overseas students:** For overseas students unable to attend our UK examination centre, alternative arrangements can be made to sit the exam in their country of residence. Any additional fees involved will be the students responsibility.

**On passing the Diploma you will receive this badge:**

Please use on your business cards, LinkedIn profiles and any other personal marketing material. You can also use these letters after your name: MTA Dip OO

## Course Fees

### Diploma - £2,950.00

This covers the 11 modules as pdfs, student assignment marking, examination costs and the issuing of a Diploma.

### Online Examination - £100

If students choose to sit their final examination online instead of at an approved venue they will need either a laptop or desktop computer with reliable, fixed line internet connection, working microphone and camera.

### Certificate - £2,150.00

This includes the 11 modules as pdfs and marking of the student assignments.

### Individual Modules

£250 - Module content only.

£400 - Module content, assessment and certification.

### Printed Certificate - £50

# Course Syllabus\*

---

## Offshore Operations

### » Offshore Surveying

- The formation of oil
- Seismic operations
- Underwater site surveys including pipe line surveys
- Seabed survey for jack-ups
- Fundamentals of offshore drilling
- Environmental factors

### » Offshore Oil and Gas Drilling Industry Introduction

- The history of the drilling industry
- The scale and growth of the industry worldwide
- Types of drilling rigs
- The history of offshore oil production
- Overview of the Subsea Equipment And Associated Shutdowns (ESDS)
- Introduction to the working environment

### » Production & Drilling Safety with Roles and Responsibilities

- Offshore drilling rig personnel
- Offshore safety and safe working practices
- Responsibility of the rig's stability
- Maintenance of offshore FPSOS and drilling rigs
- Drilling rig – crane and subsea maintenance schedules
- Helicopter equipment (fire prevention and re-fuelling) and heli-deck operations
- Hazardous areas
- Offshore production personnel
- Cargo control operational overview
- Offshore crane types and operational overview

### » Semi-Submersible/DrillShip/Jack-up Transit Operations

- Semi-submersible/drillship moving operations
- FPSO transit and mooring
- Dynamic Positioning (DP) operations overview
- Propulsion systems and controls
- Ballast/de-ballasting operations overview
- Watertight integrity (column and cross bracing structures and safety equipment)

### » Marine Drilling Systems and Equipment with an Operational Overview

- Drilling structure and terminology
- Mud and bulk process system – operations and equipment
- Blowout preventer and associated equipment
- The choke and kill manifold & mud gas separator description
- BOP regulations and testing
- Blowout kicks and well control
- Drilling equipment
- Wireline, well testing, cementing, workovers and coil tubing activities overview
- Tensioner and compensators for semi-submersible/ drillship

---

» **Semi-Submersible/Drillship/Jack-up/Offshore Drilling Operations**

- Introduction to the drilling control network systems (cyberbase)
- Running the/deployment of the 18-3/4" BOP stack and the marine riser
- Drilling rig safety equipment and philosophy
- DP operations including posmoor for applicable vessels
- Emergency power systems
- Cantilever and drill floor skidding equipment
- Jack-up jacking systems/leg lock systems
- Fire protection systems (passive and active)

» **Production Vessels Marine Operations Offshore**

- Introduction to FPSO mooring and production operations
- Pipeline systems and risers summary
- Introduction to ballast operations on an FPSO
- Production (cargo) operations overview
- The topside process system and equipment
- The FPSO turret mooring system
- Types of mooring systems for FPSOS
- Offshore pipelaying
- Windfarm/oil & gas jack-up operations

» **Anchor Handling and Supply Vessel Operations**

- Anchor handling and supply vessel operations
- The standby boats
- Heavy lift crane barges
- Semi-submersible floatover vessels principle of operation
- Shuttle tankers
- Remote Operated Vehicles (ROVS)
- Floating Storage and Re-Gasification Unit (FSRUS) & Floating Liquid Nitrogen Gas (FLNG) Reliquefaction System
- The Diving Support Vessel (DSV)
- Accommodation vessels

» **Introduction to Offshore Legislation, Guidance and Governing Bodies**

- Introduction to offshore legislation and governing bodies
- Logistic operations offshore
- Oil spill response

» **Health and Safety for the Oil and Gas and Renewable Industries**

- Health and safety for the oil and gas industry
- Offshore accident investigation
- Safety case history - offshore oil and gas industry
- Preservation and safety of the environment

\*Material is constantly updated which may affect the order in which modules are released.

Short Courses

# Terms and Conditions

## The Course

**Teaching Method:** Our courses are delivered by distance learning, unless otherwise stated.

**Course Duration:** Students will have a maximum of 18 months from the course start date to complete the modules and sit the exam.

## Course Material

**Course Language:** Our courses are conducted entirely in English, in verbal and written format.

**Delivery of Modules:** Available online via your secure student login.

Every effort will be made by the organisers to upload the modules monthly but they cannot be held liable for any delays resulting from unforeseen circumstances.

**Presentation:** The modules provide the basic knowledge for the whole course. Each module is designed to be self-contained. However, we highly recommend that candidates make every effort to increase their knowledge by reference to other sources.

**Recommended Reading:** A reading list will be provided where applicable.

**Access:** You agree not to access the Course Material for any reason other than for your personal use and solely for the purpose of study. You agree not to distribute any part or parts of the Course Material in any medium without MTA's prior written authorisation.

Access to the course material will be given on receipt of payment. Any outstanding fees will also become payable on accessing the material.

## Student Assignments

**Student Assignments:** One included with each module. They are a compulsory element of the course and they must all be completed at least six weeks before the date of the final examination.

**Self-Assessed Questions:** Some modules contain self-assessment questions designed to help candidates consolidate their knowledge.

**Studying Time:** We recommend 10 to 30 hours study time per module, with additional time being set aside for completing the student assignments.

## Tutor Support

**Tutorials:** Students can choose to participate in a tutorial which will be held before the Diploma exams in **April** and **October**. Although this is not compulsory, many previous students have found the tutorials beneficial and an excellent opportunity to meet fellow students, the Course Director, authors and tutors.

**Tutors and Authors:** To support you during your studies, tutors and authors are available to help with any questions or technical queries by email and student forums.

## Administration

For matters relating to enrolment, payment of fees, change of enrolment details, module mailings, please contact the Course Manager:

Tel: **+44 (0)1252 739779**

Email: **[courses@maritimetrainingacademy.com](mailto:courses@maritimetrainingacademy.com)**

## Examination

Examinations will be held in **April 2025** and **October 2025**.

A 6-month extension is also available upon application.

**Exam Length:** Three-hour written or online examination. All exams are Closed Book.

**Sitting Overseas:** Students must make their own arrangements to sit their examination at a suitable venue approved by the Course Administration Office at least 6 weeks prior to their examination date. Any additional expenses incurred will need to be met by the student.

Alternatively, students can sit the examination online instead of at an approved venue. They will need either a laptop or desktop computer with a reliable, fixed line internet connection, together with a working microphone and camera.

**Certificate:** Students who successfully complete the compulsory student assignments, but do not take the examination, will receive a certificate if they successfully achieve the required grades to pass.

## The Marking Structure

**Assignments:** Constitute 27% of the final mark.

**Examination:** Constitutes 73% of the final mark.

**Pass Mark:** For the Diploma written examination is 75%. For the student assignments a minimum mark of 40% is required.

## Course Fees

**Certificate Fee:** The basic course fee is **£3,195**.

This includes the course modules as PDFs, the marking of the student assignments and the issuing of a Certificate.

**Diploma Fee:** For Diploma candidates the fee is **£2,295**.

This covers the course modules as PDFs, student assignment marking, examination costs and the issuing of a Diploma.

**Online Examination:** For a fee of **£100** Diploma students can choose to sit their final examination online instead of at an approved venue.

**Certificate Completion Pack:** On successfully completing the course students will receive their Certificate via email. A Certificate Completion Pack can be posted for a fee of **£50**, plus an option to ship via courier for a fee of **£25**

**Printed Modules Fee:** In addition to the course PDFs, we also offer students the option of purchasing the modules in a hard copy format. Please note, this option is **NOT** mandatory in order to complete the course. The printed modules option is charged at an additional fee of **£500**, and modules are sent out every 3 months.

**Air Courier Fee:** For an additional fee of **£375**.

Recommended for candidates in areas experiencing problems with their postal system. Other overseas mail will be sent by airmail only.

**Extension Fee:** If you are unable to complete the course in the 18 months allocated from the start date, you can apply for a further 6-month extension for an additional fee of **£250**.

**Reregistration Fee:** We offer reregistration onto the course for lapsed students at 50% of the course costs. You will have the opportunity to resubmit any student assignments or carry any existing marks forward into the new academic year to be counted towards your final exam results.

**Resit Written Exams:** You are entitled to resit a written exam once, subject to payment of an additional fee of **£250**. Any additional expenses will need to be met by the student.

**Resit Online Exams:** You are entitled to resit an online exam once, subject to payment of an additional fee of **£375** (the **£250** resit fee plus the **£125** online examination fee).

**Not included in the fees:** Any travel or food costs or accommodation if required. Any expenses which may be incurred in arranging a suitable examination venue.

**Discounts:** Available for group registrations. Please contact MTA for details. Tel: + **44 (0)1252 739779** or **courses@maritimetrainingacademy.com**

**VAT:** Will be added at the standard UK rate where applicable. Please contact us for details.

**Reclaiming VAT:** Companies outside the UK may be entitled to reclaim VAT and need to contact their local tax authorities.

## Payment Plan

Please contact us to discuss whether the course fees can be split into smaller instalments.

## Payment Methods

**Payment:** Payment must be made upon application by bank transfer or credit card. Fees will be refunded in full should applications be declined.

**Bank Transfer:** MPI Group bank account, National Westminster Bank, 19 Shaftsbury Avenue, London, W1A 4QQ, UK

Account Number: **06532381**

Sort Code: **56-00-29**

**Credit Card:** Payment can be made securely via the Sagepay link on the invoice or we can arrange for our accounts team to process card payments over the phone.

## Cancellation Policy

Cancellations can only be made in writing before the start date of the course. Course fees, less an administrative charge of £500, will be refunded. After the start of a course the student becomes liable for all course fees due.

**Course content is subject to change at the discretion of the Course Director.**

## Data Protection

We record your personal information when you contact us and use this to manage registration, study, examination and other services. When you register, we will tell you more about how we process and use your personal information.
